Enterprise-grade
1D, 2D Scanner

iSAPPOS iPhone jacket offers front-line workers a high performance and accurate scanning experience.

This is achieved by incorporating an enterprise-grade 2D scan engine from **Honeywell** that delivers high frame rate with a high quality image sensor.

Compatible with Felica
RFID Reader

Ideal for applications such as staff management, inventory tracking and contactless payment for retail businesses.

With support for **Mifare/ISO14443A, B and C (Felica)**, you have the flexibility for various applications.
